IGNUM PROTOCOL

Sovereign Intelligence Infrastructure

Private AI infrastructure for Latin America.
Deploying 4× H200 SXM5 on 15,000 m² pilot campus with 7.3 MW operational.
The hard part is done. Now we scale.

The Opportunity

Latin America lacks sovereign AI infrastructure. Every major cloud provider operates under US jurisdiction, exposing sensitive data to the CLOUD Act. IGNUM changes this equation.

> **The hard part is already done.** We have 15,000 m² pilot campus deployed, 4× NVIDIA H200 SXM5 141 GB in deployment, 7.3 MW of trigeneration power operational, and 23 hectares ready for immediate expansion. The pathway to 100 MW is structurally locked.

CAPITAL STRUCTURE

Hybrid SPV Structure designed for minimal dilution and maximum control preservation:

- **Contract-Backed Vendor Financing** — Jenbacher & GPU manufacturers provide financing collateralized by 15-year PPA + Anchor LOIs
- **Founders' Equity Participation** — Cash flow rights, not pure equity
  - Héctor 60% / Tommy 28% / Pool 12%

Control patrimonial protegido. The capital buys exposure to cash flow and expansion upside, not the physical park. This is standard infrastructure pre-construction financing — like selling apartments in obra negra: the land and foundation are there, investors come in to finish the build and capture the upside.

THE ASSET

Energy Infrastructure

2× Jenbacher J620 (3.65 MW each) = 7.3 MW operational trigeneration.
25 km private gas pipeline.
20 MVA proprietary substation.
3 industrial wells + PTAR 1,500 m³/day.

Compute Infrastructure

4× NVIDIA H200 SXM5 141 GB HBM3e deploying Q2 2026.
15,000 m² pilot campus deployed.
23 hectares available for immediate expansion.
Pathway to 100 MW structurally locked.

CONNECTIVITY

Measured latencies (Feb 2026): 5–12 ms to Querétaro · 18–28 ms to CDMX · 42–55 ms to Dallas
Target with IRU dark fiber + DWDM: <2 ms effective to Querétaro

JURISDICTIONAL ADVANTAGE

Mexican Law + MLAT-Only. Zero CLOUD Act exposure. Data access requires formal Mexican judicial process. SAPI de CV structure with EnergyCore Owner holding company. Control patrimonial blindado.
